It has been brought to the Districts' attention that Medicare Part A and B are required for our retirees to continue their insurance benefits through ACWA JPIA. Within the District Personnel Manual only Part B is mentioned for reimbursement. We have now included Part A for reimbursement in the Personnel Manual. Reimbursements will only be up to the District Maximum, which can increase annually, depending on the increase presented for insurance premiums through ACWA JPIA. This year the District Maximum is \$1,706 per employee. On a motion by Director Stone and a second by Director Hubbell, the Board has approved the addition of Part A to Retiree Reimbursements in the Personnel Manual with the following roll call vote:

MANAGER'S REPORT.

Field Maintenance: The Valley View Park AMI meter installation has been completed. We are waiting on Valley View to get all the account information files sent to Neptune. Once Neptune receives the account information from VVPMWD, Neptune can finish the Neptune 360 program for us.

DRAFT

Mr. Sale reported that Valley Views PRV (pressure reducing vault) has been repaired along with the rebuilding of the 2" and the 6" valves. The 6" valve had not been opened in so long that it was rusted shut and was unable to provide fire flow in the lower zone. The demand is so small that this valve will remain closed unless there is a fire or leak. The lower zone will be added to the District's bi-annual flushing program to keep it operational.

Mr. Dale also reported that the District is currently working on the annual weed-abatement. Once completed Staff will be doing hydrant maintenance and repairing or replacing broken valves.

District Grants: Manager Weddle stated he would be meeting with California Consulting on July 2 to discuss the potential for State water grants. He stated that the District priority is to repair the line that spans the bridge in front of Sanitation. This would provide service to the east side of the lake without having to send water completely around the lake.

Well At San Moritz: The District ran a pump test on the well at the Lake Gregory grassy area and found that the current well access did not have enough recovery to support using it to water the grass.

Medicare Part A: Manager Weddle reported that ACWA is requiring Medicare Part A which has mandatory enrollment for any retired person that turns 65 and qualifies for Medicare coverage through the District. If the retiree that is eligible for medical through CVWD does not wish to enroll in Medicare A & B upon turning 65, they will not be able to enroll in, or transition to the District Medicare retiree medical plans and their retiree medical benefits through JPIA will terminate.

DIRECTORS' REPORTS: Director Hubbell will not be attending the July Board Meeting and would like his board packet to be emailed to him.

1. Requests for Future Agenda Items: None.
2. Staff Items: None.

As there was no further business to discuss, the meeting was adjourned at 4:14 pm. The next meeting date is July 15, 2025. This meeting will be held in person at the District office at 3pm.
